

学際展開国際がんシンポジウム

宿主状態の改善からがんの克服をめざす： 新しいがん悪液質観の確立

Interdisciplinary International Cancer Symposium

Defeating cancer from a host perspective: cancer cachexia

月日： 令和7年9月25日(木)

時間： 13:40～16:10

場所： 金沢市アートホール
(ポルテ金沢6階)

Date: Sep. 25, 2025 (Thu.)

Time: 13:40～16:10

Venue: Kanazawa Art Hall
(Porte Kanazawa 6F)

Shinpei Kawaoka, PhD
Tohoku University

Immuno-metabolic crosstalk
in cancer cachexia

Session Organizers

Hong-Wen Tang, PhD
DUKE-NUS Medical School

Muscle-cancer
communication in cachexia:
signals, pathways, and
implications

Akiko Ogawa, MD, PhD
Tohoku University

RNA-derived extracellular
modified nucleosides and
their roles in cancer
pathophysiology

Takeshi Suzuki
Director General
Cancer Research Institute
Kanazawa University

Christine Chio, PhD
Columbia University

An iron-regulated signaling
pathway controls adipose
browning and cancer
cachexia

Nobuyuki Takakura, MD, PhD
Osaka University

The potential role of
vascular impairment in the
onset of cancer cachexia

Shinpei Kawaoka
Tohoku University

Atsushi Hirao, MD, PhD
Kanazawa University

Nicotinamide metabolism in
diagnostic and therapeutic
approaches for cancer-
associated metabolic
abnormalities
